

## Overview

---

# EHF 4030

## Electro adhesive rods

**Product number** 4011 4030

## Description

---

EHG electromagnetic holding rods are used in fixture construction, for gripper systems and for a wide variety of tasks in mechanical engineering. Depending on the task, they can be controlled via simple DC voltage supplies or pole reversal control devices. Systems with built-in rectifiers for direct supply with AC voltage are also common.

## Product information

|                                 |        |
|---------------------------------|--------|
| <b>Borehole:</b>                | 8 x M6 |
| <b>Degree of protection:</b>    | IP65   |
| <b>Dimension diameter (mm):</b> | 50     |
| <b>Dimension height (mm):</b>   | 31     |
| <b>Dimension length (mm):</b>   | 400    |
| <b>Dimension width (mm):</b>    | 32     |
| <b>Holding force (kN):</b>      | 4,7    |
| <b>Holding force from (mm):</b> | 8      |
| <b>Power (W):</b>               | 35     |
| <b>Voltage (V DC):</b>          | 24     |
| <b>Weight (kg):</b>             | 2,5    |
| <b>ED:</b>                      | 100%   |
