

## Overview

---

# FX-LT 700

## Light Trusses

Product number 1104 0700

## Description

---

FX-LT magnetic trusses are adapted to the needs of sheet metal processors, laser and flame cutters. Two FX lifting magnets and a lightweight truss with two-strand chain hanger enable loading and unloading of machines with sheet metal, or horizontal pick-up of workpieces with a central cutout. The magnets can be removed from the truss in a few simple steps to lift blanks and small sheets with only one magnet.

## Product information
