

Overview

FX-LT 600

Light Trusses

Product number 1104 0600

Description

FX-LT magnetic trusses are adapted to the needs of sheet metal processors, laser and flame cutters. Two FX lifting magnets and a lightweight truss with two-strand chain hanger enable loading and unloading of machines with sheet metal, or horizontal pick-up of workpieces with a central cutout. The magnets can be removed from the truss in a few simple steps to lift blanks and small sheets with only one magnet.

Product information

Dimension height (mm):	270
Dimension length (mm):	1600
Load capacity from (mm):	10
Max. load capacity (kg):	600
Weight (kg):	44
incl. 2x FX:	FX-P330
max. workpiece dimensions (mm):	4000 x 1500
