

Overview

ERM-X 25

Electro Circular Magnets

Product number 1010 250

Description

For lifting of ground parts, bulk material and for occasional sorting out of magnetizable parts. ERM are equipped with mounted switch and integrated rectifier, for direct connection to 230 V mains voltage. The field depth is approx. 80-120 mm. Not permitted for transporting solid workpieces in unprotected areas.

Product information

Coil Voltage (V):	110
Connection voltage (V):	230
Dimension diameter (mm):	250
Dimension height (mm):	340
Power (W):	220
ED:	100%
