FX-KT 240-540

Small Trusses

Product number 1105 0240-540

Description

FX-KT small trusses lift workpieces that cannot be picked up with a magnet in the center, such as rings, punching tools and flanges.

Two FX magnets, adjustably mounted on a truss made of high-strength aluminum, provide a secure hold.

With a few simple steps, the magnets can be removed from the truss and used individually.
